PAPERS

CHIEFFI BACCARI G, MATTEO G, MINUCCI S. The orbital glands of the chelonians *Pseudemys scripta* and *Testudo graeca:* comparative histological, histochemical and ultrastructural investigations *page* 1

MCCARTHY PW, PETTS P, HAMILTON A. RT97- and calcitonin gene-related peptide-like immunoreactivity in lumbar intervertebral discs and adjacent tissue from the rat 15

RADNER W, STOCKINGER L. Intracellular axonemes within ciliated cells in the tracheal epithelium of domestic pigs 25

CAMINERO AA, MACHÍN C, SANCHEZ-TOSCANO F. Cytoarchitectonic and quantitative Golgi study of the hedgehog supraoptic nucleus 31

CHAN L, WONG YC. Cytochemical localisation and characterisation of proteoglycans (glycosaminoglycans) in the epithelial-stromal interface of the seminal vesicle of the guinea pig 41

ROBERTS P, MCGEACHIE JK. The effects of clenbuterol on satellite cell activation and the regeneration of skeletal muscle: an autoradiographic and morphometric study of whole muscle transplants in mice 57

ROBERTS P, MCGEACHIE JK. The effects of pre- and post-transplantation exercise on satellite cell activation and the regeneration of skeletal muscle transplants: a morphometric and autoradiographic study in mice 67

VEIGA NETO R, TAMEGA OJ, ZORZETTO NL, DALL PAI V. Anatomical aspects of the lacrimal gland of the tufted capuchin (*Cebus apella*) 75

FRAILE B, SÁEZ FJ, CODESAL J, PANIAGUA R. Characterisation of secondary spermatocytes in the marbled newt (*Triturus marmoratus*) 81

SHIMADA M, AKAGI N, GOTO H, WATANABE H, NAKANISHI M, HIROSE Y, WATANABE, M. Microvessel and astroglial cell densities in the mouse hippocampus 89

NISTAL M, SANTAMARÍA L, PANIAGUA R. The ampulla of the ductus deferens in man: morphological and ultrastructural aspects 97

AKITA K, SAKAMOTO H, SATO T. The cutaneous branches of the superior gluteal nerve with special reference to the nerve to tensor fascia lata 105

GLENN JA, WARD SA, STONE CR, BOOTH PL, THOMAS WE. Characterisation of ramified glial cells: detailed morphology, morphological plasticity and proliferative capability 109

GEOURGIOU C, CASSELL MD. The foramen meningo-orbitale and its relationship to the development of the ophthalmic artery 119

MCGADEY J, JOHNSTON HS, PAYNE AP. The hamster harderian gland: a combined scanning and transmission electron microscopic investigation 127

TAYLOR JR, SCOTT JE, CRIBB AM, BOSWORTH TR. Human invertebral disc acid glycosaminoglycans 137

FERNANDEZ CASO M, DE PAZ P, FERNANDEZ ALVAREZ JG, CHAMORRO C, VILLAR JM. Delamination of neuroepithelium and nonneural ectoderm and its relation to the convergence step in chick neurulation 143

SCOTT JE. Morphometry of Cupromeronic blue-stained proteoglycan molecules in animal corneas, versus that of purified proteoglycans stained in vitro, implies that tertiary structures contribute to corneal ultrastructure 155

FERRER I, ZUJAR MJ, ADMELLA C, ALCANTARA S. Parvalbumin and calbindin immunoreactivity in the cerebral cortex of the hedgehog (*Erinaceus europaeus*) 165

HITCHCOCK RJI, PEMBLE MJ, BISHOP AE, SPITZ I, POLAK JM. Quantitative study of the development and maturation of human oesophageal innervation 175

SHORT REPORTS

HENNEBERG M, GEORGE BJ. High incidence of the median artery of the forearm in a sample of recent Southern African cadavers 185
AL-QATTAN MM, DUERKSEN F. A variant of flexor carpi ulnaris causing ulnar nerve compression 189
HATIBOĞLU MT, ANIL A. Structural variations in the jugular foramen of the human skull 191
NIIDA S, YAMASAKI A, KODAMA H. Interference with interparietal growth in the human skull by the tectum synoticum posterior 197
GOPINATHAN K. A rare anomaly of 5 ossicles in the pre-interparietal part of the squamous bones in north Indians 201

CORRESPONDENCE

FITZGERALD MJT. Undergraduate medical anatomy teaching 203

BOOK REVIEWS 211
ANNOUNCEMENTS 217

PAPERS

SRIVASTAVA HC. Ossification of the membranous portion of the squamous part of the occipital bone in man 219
BARKER SGE, CAUSTON BE, BASKERVILLE PA, GENT FS, MARTIN JF. The vasa vasorum of the rabbit carotid artery 225
MAIER A. Fast and slow intrafusal fibre type systems in chicken leg muscle spindles 233
TAY SSW, WONG WC. Immunocytochemical localisation of substance P-like nerves in the cardiac ganglia of the monkey (*Macaca fascicularis*) 239
BECERRA M, ANADÓN R. The structure and development of the 'plana semilunata' of the labyrinth of the trout 247
MARKEY CM, MEYER GT. A quantitative description of the epididymis and its microvasculature: an age-related study in the rat 255
BREDMAN JJ, WEIJS WA, KORFAGE HAM, BRUGMAN P, MOORMAN AFM. Myosin heavy chain expression in rabbit masseter muscle during postnatal development 263
CAGGIATI A, MACCHIARELLI G, NOTTOLA SA, VIZZA E, FAMILIARI G. Scanning electron microscopy of the rabbit gallbladder mucosal microvasculature 275
CASOTTI G, RICHARDSON KC. A stereological analysis of kidney structure of honeyeater birds (Meliphagidae) inhabiting either arid or wet environments 281
TAVENDALE SJ, MACKAY S, SMITH RA. Oocyte numbers are reduced in developing mouse ovaries cultured in testis-conditioned medium 289
FUSS FK. Principles and mechanisms of automatic rotation during terminal extension in the human knee joint 297
NG YK, WONG WC, LING EA. The intraglandular submandibular ganglion of postnatal and adult rats. I. A light and electron microscope study 305
OHNO S. An ultrastructural study of the cytoplasmic aspects of erythrocyte membranes by a quick-freezing and deep-etching method 315
VETTIVEL S, INDRASINGH I, CHANDI G, CHANDI SM. Variations in the intertubercular sulcus of the humerus related to handedness 321
BENJAMIN M, NEWELL RLM, EVANS EJ, RALPHS JR, PEMBERTON DJ. The structure of the insertions of the tendons of biceps brachii, triceps and brachialis in elderly dissecting room cadavers 327
KAUR C, LING EA. Activation and re-expression of surface antigen in microglia following an epidural application of kainic acid in the rat brain 333

SHORT REPORTS

SBARBATI A, LECLERCQ F, ZANCANARO C, ANTONAKIS K. Magnetic resonance imaging of semicircular canals 343

IN MEMORIAM
PROFESSOR FRITZ JACOBY 347

BOOK REVIEWS 351
PROCEEDINGS 353
ANATOMICAL SOCIETY OF GREAT BRITAIN AND IRELAND, DECEMBER 1991

ANNOUNCEMENTS 355

PAPERS
ZILBERMAN U, SMITH P. A comparison of tooth structure in Neanderthals and early *Homo sapiens sapiens*: a radiographic study 387
ABERNETHY DA, RUD A, THOMAS PK. Neurotropic influence of the distal stump of transected peripheral nerve on axonal regeneration: absence of topographic specificity in adult nerve 395
MAROTTE LR, RICE FL, WAITE PME. The morphology and innervation of facial vibrissae in the tammar wallaby, *Macropus eugenii* 401
KIESER JA, GROENEVELD HT. Comparative morphology of the mandibulodental complex in wild and domestic canids 419
ECKSTEIN F, MÜLLER-GERBL M, PUTZ R. Distribution of subchondral bone density and cartilage thickness in the human patella 425
VECINO E, PIÑUELA C, ARÉVELO R, LARA J, ALONSO JR, AIJÓN J. Distribution of enkephalin-like immunoreactivity in the central nervous system of the rainbow trout: an immunocytochemical study 435
DEGENS H, TUREK Z, HOOFD LJC, VAN'T HOF MA, BINKHORST RA. The relationship between capillarisation and fibre types during compensatory hypertrophy of the plantaris muscle in the rat 455
DJERIDANE Y. The harderian gland of desert rodents: a histological and ultrastructural study 465
PEEL S, STEWART IJ. Distribution of ^{125}iodine-labelled mouse immunoglobulin G injected intravenously in pregnant mice 481
ROY RR, PIEROTTI DJ, FLORES V, RUDOLPH W, EDGERTON VR. Fibre size and adaptations to spinal isolation and cyclical passive stretch in cat hindlimb 491
CHARLTON BG, MCGADEY J, RUSSELL D, NEAL DE. Noradrenergic innervation of the human adrenal cortex as revealed by dopamine-beta-hydroxylase immunohistochemistry 501
JOHNSON DR, O'HIGGINS P, MCANDREW TJ, KIDA M. The inheritance of vertebral shape in the mouse. I. A study using Fourier analysis to examine patterns of inheritance in the morphology of cervical and upper thoracic vertebrae 507
STROCCHI R, DE PASQUALE V, GUBELLINI P, FACCHINI A, MARCACCI M, BUDA R, ZAFFAGNINI S, RUGGERI A. The human anterior cruciate ligament: histological and ultrastructural observations 515
KAUFMAN MH. Postcranial morphological features of homozygous tetraploid mouse embryos 521
DODSON HC, BANNISTER LH, DOUEK EE. Enhanced horseradish peroxidase uptake in the electrically stimulated cochlea of the guinea pig 535
LEEK MD, BARLOW YM. Tissue reactions induced by hydrocolloid wound dressings 545
